

Worksheet

Categorize the Drug

Write a "D" in front of statements or words that describe depressants, an "H" before those about hallucinogens, and an "S" before those that describe stimulants.

- ☐ Suppress the central nervous system
- ☐ Marijuana
- ☐ Numb the body to pain
- ☐ Heroin
- ☐ Can cause someone to see things that aren't there
- ☐ Increase heart rate and adrenaline
- ☐ Can cause heart attacks, seizures, and strokes
- ☐ Caffeine
- ☐ Act as a sedative
- ☐ LSD
- ☐ Ecstasy
- ☐ Some types of these act like endorphins
- ☐ Slow heart rate, breathing, and blood pressure to dangerous levels
- ☐ Cocaine

Think About It

What is the difference between using drugs for medicinal purposes and drug abuse?
