

Parent Prevention Post!

Prevention Curriculum

Today in class students learned about a class charter. A charter is like a promise we make to one another. Here are some fast facts about our charter:

- A charter describes how we want to feel at school and what we can do to ensure that everyone has those feelings!
- The charter is a “living” document- meaning once it is created, teachers and students can change it throughout the year!

You can make a charter at home! With your family:

1. Choose 3-4 words you want to feel at home with your family.
2. For each feeling, brainstorm a few ways to help each other feel that way!
 - a. Ex. If you want to feel included, you could think of ways to include one another!
